API Documentation pour l'application Stubborn E-commerce

Authentication

Opérations d'authentification

Authentification utilisateur

REQUEST BODY SCHEMA: application/json
required

| email | string |
| password | string |

Responses

> **200**

Connexion réussie

POST   /auth/login

Request samples

Payload

Content type

application/json

Copy

```
{
    "email": "string",
    "password": "string"
}
```

Response samples

200

Content type

application/json

Copy　　Expand all　　Collapse all

```
{
    "success": true,
  – "data": {
        "token": "string",
      + "user": { … }
    }
}
```

Sweatshirts

Gestion des sweatshirts

Liste des sweatshirts

AUTHORIZATIONS: ❯　　*bearerAuth*

QUERY PARAMETERS

`page`　　　　　integer

　　　　　　　　Numéro de page

limit	integer
	Nombre d'éléments par page

Responses

> **200**

Liste des sweatshirts

GET   /sweatshirts

Response samples

200

Content type
application/json

Copy   Expand all   Collapse all

```
{
    "success": true,
  - "data": {
      + "items": [ … ],
      + "pagination": { … }
    }
}
```

Créer un nouveau sweatshirt

AUTHORIZATIONS: >   *bearerAuth*

REQUEST BODY SCHEMA: application/json
required

name	string
price	number

image	string <binary>
sizes >	object

POST   /sweatshirts

Request samples

Payload

Content type
application/json

Copy   Expand all   Collapse all

```
{
    "name": "string",
    "price": 0,
    "image": "string",
